Report on Seminar 'Handwriting Development and Grapho-therapy'

Date: 19 September, 2018

Workshop on Hand Writing Development and Grapho-therapy was conducted on 19th September, 2018. The seminar was graced by Sri. Imran Baig, Chief Executive Officer, Handwriting Institute of India, Smt. Gowri S, and Dr. Anitha D'Souza, Principal, BMS college of Law. The seminar was commenced by invoking the blessings of almighty by Nagesh, Student, BMS College of Law.

The resource person for the technical session was Sri. Imran Baig, he addressed the students on 'Science of Handwriting Analyse'. The resource person explained about the characteristics of handwriting which includes following:

- The specific shape of letters, e.g. their roundness or sharpness
- regular or irregular spacing between letters
- the slope of the letters
- the rhythmic repetition of the elements or arrhythmia
- the pressure to the paper
- the average size of letters
- the thickness of letters

The resource person was Smt. Gowri S, deliver lecture on topic titled 'Grapho therapy' Grapho therapy is a means of making conscious alterations in your handwriting in order to effect desired subconscious changes in your personality. She explained that when we write, our brain sends message, through the nerves in our arm, to our hand. Graphotherapy, on the other hand, is a reversal of the normal writing process where our hand sends messages to our brain, which is the root of various ills such as lack of persistence and determination, absence of concentration, depression, low self-esteem and inability to get over past affairs and failures.

Technical session- III- Relevancy of Document Examination in Court', the resource person explained about the importance of handwriting expert in examination of documentary evidence

which support a case in court of law. He explained about legal implications of the evidence given by handwriting expert.

He said that handwriting is relatively stable, a change in the handwriting can be indicative of the nervousness or intoxication of the writer. A sample of a person's writing can be compared to that of a written document to determine and authenticate the written document's writer; if the writing styles match, it is likely that one person wrote both documents.

Tips to improve handwriting are as follows:

- Use a Nice Pen,
- Maintain a Relaxed Grip
- Start with Drills
- Experiment with Paper Rotations
- Practice with a Worksheet
- Sneak in Practice When You Can
- Write on Lined Paper or Use a Template
- Embrace Your Personal Style

Technical Session-IV- Advance Level of Graphology', Sri. Gowri S meticulously explained about handwriting analysis which is very similar to various other personality assessment tools that can help us to become a better individual. Yet, many people avoid all these tools. They are under the impression that they know themselves extremely well. The self-appraisal makes them feel good about themselves.

All the participants enjoyed the practice session conducted during the seminar. The seminar was concluded by distribution of certificate distribution followed by vote of thanks rendered by Sri. Sathish K S. Overall the seminar was very fruitful for all the staff & students.
