The Menstrual Hygiene Campaign took place on the 4th of December 2021 in the BMS PU College for Women. Organised by the teachers and students of the Social Awareness Club and the Earth Club from BMS College of Law, they engaged in spreading awareness, advocacy and knowledge around the importance of menstrual hygiene management. There are many taboos and myths related to menstruation, and the event aimed to break all the taboos and raise awareness among individuals who menstruate and the ones who don't.

The event was hosted by Ms.Shruti T and Ms.Gurvinder Kaur, who had been a constant support and are the heart and soul of this purposeful event. Along with the two teachers, the program was also led by Ms.PriyankaVaidyanath, Ms.Ramya K and Mr.Rajiv Gopinath by joining the whole team to the venue and assisting at full length to make sure the program ran effortlessly. Representing the student body, Bhuvangowda (7th semester, Vice President), Thanmayei Raj (5th semester, Cultural secretary), Mayur Manjunath (7th semester) and Aaryan Jayram (8th semester) volunteered and took responsibility of the necessities such as the banners, the menstrual cups that were to be distributed, and the presentation.

The program commenced at 9:30 at the venue by Ms. Gurvinder Kaur and Ms. Shruti. T giving the introductory speech to the girls and present teachers of the BMS PU College for Women. Her short speech was so in detail that the students by the end of her speech already had an idea of what the rest of the program would cover.

Ms. GURVINDER KAUR

Ms. SHRUTI.T

Followed by a presentation by student Thanmayei Raj (5th semester) about menstruation, and its connection to religion, the struggles faced by rural girls, ways of disposal and new, alternate options available in the market that are sustainable to the environment, comfortable to the user and cost friendly. The presentation contained three videos, about menstruation, the new types of absorbents and a step by step process of how to use a menstruation cup.

In continuation to the presentation, a few girls from the 1st semester took over with a short skit that spoke about a young girl from a rural area who is experiencing menstruation for the first time and is confused, experiencing discomfort and pain, yet, the family is not very supportive of her and sends her off to an isolated place, away from her home and what is called a "period hut". The young girl is asked to drop out of school. The skit was presented so well that evenh minimum narration the audience were able to understand the pain and struggle of the character, the concept of how such a normal occurrence is a major taboo in a lot of places in India.

1ST SEMESTER GIRLS, SKIT

The program was carried forward by Ms.PriyankaVaidyanath. Maam briefly explained the method of using a menstruation cup. She explained the removal and insertion of the production, the way to keep the produced hygienic and filled in confidence in these young girls that it is an absolutely pain free process.

EXPLAINING THE USE OF A MENSTRUAL CUP

Coming to the end of this thoughtful event, the teachers distributed menstrual cups to every girl who was willing to try it and make some changes in her habits. We had purchased 30 cups for distribution and it was a relief to see that all the 30 cups were distributed and that our presentation had an impact on these young girls' minds and many were willing to give it a try. The team of SOCIAL AWARENESS CLUB and EARTH CLUB, BMSCL also promised that in case the rest of the girls changed their minds and wanted to use these cups, we would be happy to contribute by distributing more of these cups.

Dear Mr. Anitha,

Greetings from M Square Networks!!!!

M square Networks is dedicated to provide De-stress management services to employees (Under employee wellness program) we have been dedicated to this goal. Events include De-stress management through different therapies. We are driven by our compassion, commitment and for the well-being of people. We cannot succeed alone but together we can work for a society where all people can thrive freely. Under "**Aarohan Wellness Program**" till date we have trained more than 9300 cops and their family members in last one & half year from a constable level to DG-IGP level. We have conducted more than 21 stress management programs in last 18 months for our Karnataka State Police.

According to a survey everyday India sees 10 suicides related to drug abuse, Kids hear about drugs everywhere: on TV, radio, news, online, music and movies; and sometimes even on the street or on the playground. The teen years are the most likely time for someone to start trying drugs. And starting drug use as a teen can lead to drug problems when they grow up.

The incidence of drug abuse among children and adolescents is higher than the general population. This is notably because youth is a time for experimentation and identity forming. In India an NGO survey revealed that 63.6 % of patients coming in for treatment were introduced to drugs at a young age below 15 years. There are very few to no health centers that deal with child substance abuse problems, especially in the rural areas. The use of tobacco is another major concern among children. In India 20 million children a year and nearly 55,000 children a day are drawn into a tobacco addiction. The number is shocking when compared to the 3000 a day new child smokers in the US.

A small step towards tackling the above issue we are organizing a walkathon for all the college students along with our police to create awareness. Our Bangalore city police along with the entire team request all the participants to say NO TO DRUGS.

Venue: Lalbagh, Double Road Entrance Gate, Bangalore

Date: 25th Feb 2018

Time: 7:00 AM to 9:00 AM

Content: Zumba Session, 3 Km & 5 KM Walk which will be flagged off by senior police officers, Cultural program by college students to drive students against drug usage.

Participants: All the College students of Bangalore South colleges along with Bangalore City Police of South Law and order Division.

Please let us know if your organization would be interested to get associated with us and help us conduct this event successfully by sponsoring the same. If you are keen to help us we would provide more details.

Please do revert for any further information or clarifications.

Regards,

Team Aarohan

Ngo visit -2018 'Anatha Shishu Nivasa'

The BMS collage of Law, as a matter of inculcating the social responsibilities to the new generation, the coordinator along with students figuring 15 members visited the organisation on 21th April 2018, between 2.00 pm and 5.15 pm.

An *orphanage* is a residential *institution* devoted to the care of *orphans*—*children* whose biological parents are deceased or otherwise unable or unwilling to take care of them. Biological parents, and sometimes biological grandparents, are legally responsible for supporting *children*. An orphan is defined as a child that has lost one or both parents. The loss of one Parent classifies a child as a “single orphan” and the loss of both parents as a “double Orphan.” In many cases an “orphan” may still live with primary or extended family.

- children being placed in orphanages were parental HIV and AIDS status or other chronic illness and poverty. Chronic diseases such as AIDS and lack of adequate medical treatment are frequently correlated with poverty.
- Poverty, together with death of a parent or abandonment by a parent, was the reason for placement in an orphanage
- children with disabilities are placed in orphanages because families don't have access to appropriate support services
- Due to grown-ups failed to realise the duty and much engrossed in their personal lives, and feel it is an interference and burden in their personal life to have them in their life. Hence put them in orphanage home.
- The ego clash mainly between wife and husband results divorce or one parent hand difficulty to look after the child so sending the child to orphanage homes.
- In some cases, they are orphans from the inception (date of birth), so those children for the purpose of survival hospital people refer and prefer such type of orphanage home
- In some cases, the bad habits of the parents like drinking, drug addicted, etc., force their children to keep them away. children need in residential care, especially in the face of alcohol and drug abuse or in cases of untreated mental illness.
- In some cases, children who neither have any lively hood nor have any interested to adopt them by their relatives so the children forced to take shelter under this organisations.
- In some cases, the parents are in remand home or prison(jail). The relative of those children send them to such organisation.

The reasons for orphans are:

- Mainly the growing indiscipline among the population and having illegitimate children which forces the illegal parents to drop the children in the streets.
- At time loss of both parents and no care taker to the children accommodated here.
- Not having broad mindedness to adopt the orphan children by the childless couples as an age old practice of having their own hereditary.

CONCLUSION:

The orphanages are the result of weakening of family bonds and because of which parents who were now hesitant to take care of their children in their life. It is one of the cause of dilution of joint family culture and adopting the European culture. To avoid abuses from the society - suggestions made for the children are as followed:

- ❖ The children should make sure to that they study well in the academics. basic knowledge/ education should be there to understand the society and people.
- ❖ The children should open up with the outside world.
- ❖ Keep contact of their good old friends and neighbours to get their attention diverted for time daily.
- ❖ Irrespective of their financial position and status, keep handful distance away from their past life.
- ❖ Participating in community activities so that they stay sociable as they age.
- ❖ As a citizen of India all children should aware about all the facilities and benefits from the government

The study of children leaving orphanage care found that there is a chronic lack of attention given to this population, leaving them with feelings of isolation that was compared to "living on an island without service to promote integration into society.

Children living in orphanages are at greater risk for long-term negative impact

on their social, emotional, and cognitive development without realizing the detrimental effects.

As a citizen of India and law student, we try to ensure that all children are well cared for, ideally within a family, takes the active involvement of and collaboration between government, non-governmental organizations, local communities, the faith-based community, families and caregivers, as well as children and youth and We left the institution under the impression that an orphanage is beneficial to a child because it fulfils some of his or her basic needs.

Dear Ms. Meghana,

Greetings from M Square Networks!!!!

According to a survey everyday India sees 10 suicides related to drug abuse, Kids hear about drugs everywhere: on TV, radio, news, online, music and movies; and sometimes even on the street or on the playground. The teen years are the most likely time for someone to start trying drugs. And starting drug use as a teen can lead to drug problems when they grow up.

The incidence of drug abuse among children and adolescents is higher than the general population. This is notably because youth is a time for experimentation and identity forming. In India an NGO survey revealed that 63.6 % of patients coming in for treatment were introduced to drugs at a young age below 15 years. There are very few to no health centers that deal with child substance abuse problems, especially in the rural areas. The use of tobacco is another major concern among children. In India 20 million children a year and nearly 55,000 children a day are drawn into a tobacco addiction. The number is shocking when compared to the 3000 a day new child smokers in the US.

A small step towards tackling the above issue we are organizing a walkathon for all the college students along with our police to create awareness. Our Bangalore city police along with the entire team request all the participants to say NO TO DRUGS.

A brief history of Aarohan:

Under "**Aarohan" Wellness Program** till date we have trained more than 13000 cops and their family members in last one & half year from a constable level to DG-IGP level. We have conducted more than 25 stress management programs in last 24 months for our Karnataka State Police.

Venue: Cubbon Park, Bangalore

Date: 10th Nov 2018

Time: 7:00 AM to 9:00 AM

Content: Zumba Session, 3 Km & 5 KM Walk which will be flagged off by Eminent Personality, Cultural program by college students to drive students against drug usage.

Note: This is a initiative taken by Central Division(Law & Order),Bangalore City Police headed by DCP Mr. Devraj

We would urge your Institution to take part in this awareness drive and bring lot of energy to all of us. With support of your institution we can take this awareness to a greater heights.

Want confirmation from your Institution regarding the support for this cause, So that we will come back with a plan on how we can take it forward. Please do revert for any further information or clarifications.

Regards,

Vinay

AN APPEAL

Asaktha Poshaka Sabha founded in the year 1923, has in the course of the last 94 years has been providing food, clothing, medical assistance and shelter to senior citizens.. All these services, we are happy to state, are being provided **absolutely free of cost. At present we have 175 Senior Citizens.**

The **disintegration of the Joint Family system and better health facilities** have contributed for the longevity of life resulting in a **dramatic increase in the aged population** which has led to an increased number of destitute and neglected Senior Citizens, seeking free shelter and food. The Changed social scenario has motivated and prompted us to go for Platinum Jubilee Blocks, Sick Care Block, Service Block, Solar Water Supply, Renovation of Dining Hall & Kitchen etc.,

The generous Donations made by thousands of philanthropists over the years have enabled the Institution to grow from strength to strength and have successfully celebrated Silver, Golden, Diamond & Platinum Jubilees. A Building has been constructed with a spacious Dining Hall, ultra modern smoke free kitchen, Auditorium etc., commemorating Diamond Jubilee. A small but an elegant Temple of Abhaya Anjaneya Swamy has been consecrated in the Sabha's quadrangle for the benefit of its residents on 4th February 1991.

All the residents are provided with Stainless Steel Cots, Side Lockers. LCD T.Vs were installed in all Dormitories.

ASAKTHA POSHAKA SABHA PLATINUM JUBILEE COMMEMORATIVE BLOCKS

Former Prime Minister Sri H.D. Devegowda laid the foundation stone for massive Platinum Jubilee Blocks on 15.1.1995. The then Ladies/Gents Dormitories and Administrative Blocks were dismantled and new Platinum Jubilee Blocks together with Bathing Centre have been constructed at a cost of Rupees 150 lakhs which can comfortably accommodate 150 senior citizens. Late Sri G.M.C. Balayogi, Hon'ble Speaker, Lok Sabha inaugurated Platinum Jubilee Blocks on 17.1.1999 in the presence of a distinguished gathering. The Bathing Centre with hot water facilities with over 10 Bathrooms have been commissioned.

BLOCKS FOR MALE AND FEMALE

We have constructed **separate dedicated Blocks** for Male and Female and each Block can accommodate 18 Residents. It is
