FIRE SAFETY POLICY

Introduction

It is the policy of the institution to ensure that all employees, students and visitors are protected from the risks of fire. To achieve this aim, appropriate fire prevention/precaution measures shall be taken including minimising the spread of smoke. Also, appropriate evacuation procedures shall be developed, implemented, and periodically tested. All persons shall be provided with sufficient appropriate fire awareness training and instruction. All premises shall comply with relevant fire safety legislation and recognized good practice. The fire safety policy plan is necessary to create a campus-wide system for preventing and/or responding to potential fire hazards.

Purpose:

- To help reduce or eliminate the potential for fires to occur, as well as to protect the lives of students, faculty, staff, and visitors and preserve the property of the institution.
- Implement proactive fire safety engineering controls, measures, inspections and rules that can prevent the causes of fires.

Responsibilities

The Governing Body has the ultimate responsibility for fire safety in the institution. The Governing Body acts through the Compliance Sub-Committee to review this policy and to monitor the effective working procedures of the institution including reviewing the reports of incidents.

The coordinator is responsible to the Governing Body for fire safety within the institution although they have delegated the immediate operational role to the members. They will be assisted in the carrying out of their responsibilities.

Role of the Fire Safety Officer

The Admin Officer is the designated Fire Safety Officer and is responsible for ensuring that:

- The Fire Safety Policy is kept under regular review
- The Fire Safety Policy is communicated to all the stake holders
- The appropriate basic fire training for all staff is provided on an annual basis

Installation of Fire Extinguishers

- Fire-fighting equipment (commonly known as "fire extinguishers") are located at the strategical points.
- Staff will receive training in the safe operation of portable fire-fighting equipment and the appropriate applications for particular items.
- No attempt should ever be made to tackle a fire unless it is very minor and poses no significant threat to the occupants of the building.
- This equipment is maintained regularly. It is a disciplinary offence – for pupils and staff alike – to tamper with any fire-fighting equipment.

Fire Prevention Measures

- No smoking inside campus buildings or within 25 feet of the building.
- Open fires are prohibited in campus buildings.
- No halogen lamps or electric heaters allowed.
- No covering light fixtures for decorations/effect/etc.
- Extension cords are for temporary use only (typical rule of thumb is 3 days or less) and replaced when signs of damage are discovered.
- Proper and safe use of surge-protected multiple strip outlets.
- Proper storage of flammable materials, especially flammable liquids
- Control of sources of heat/ignition near flammable materials, liquids, and gases.

Evacuation Drills

An evacuation will be carried out at least once a term either in the form as a planned practice evacuation. After each evacuation, staff are required to provide information and observations on positive and negative aspects. The conditions and timings of the practice will be varied, such that sometimes no notice will be given to either Staff or Students, and sometimes a false fire will be used to block a major exit route to test how people cope when required to deviate from the normal route.

Open Fire Safety Policy

Open Fires are prohibited on campus, as stated in the Fire Safety Policy. Open Fire is defined as the burning of fuel such as propane gas, charcoal, paper, wood fuel used for pleasure, religious, ceremonial, cooking, warmth, or similar purposes. This includes fires such as fire pits, outdoor fireplaces, chimneys, and bon fires, and small flames such as candles, incense, etc.

Location & Labels

- Fire extinguishers will be located in easy to reach locations, usually located and mounted on walls near the entry/exit doors, at the top of stairwells or along corridor walls.

Extinguishers will be clearly visible and marked with standard fire extinguisher labels / stickers or box.

- Portable extinguishers will be maintained in a fully charged condition by conducting regular safety inspections. When extinguishers are removed for charging or maintenance, a fully charged unit will be provided.
- Extinguishers should be mounted for easy access and visibility whenever possible. The top of the extinguisher should be about 3 feet off the floor.

- Extinguishers should be located so that a minimum amount of time will be needed to travel to the fire location in order to prevent the fire from having a significant opportunity to get out of control.

Safety Inspection Process

- Certification inspections of all fire extinguishers will be conducted on an annual basis. The inspection/certifications will be conducted by an outside vendor specializing in this service.

Inventory

- A complete inventory of all fire extinguisher locations will be maintained (Excel inspection forms and building floor plans in CADD). Generally, a floor plan will be used to indicate the specific location of all extinguishers within a facility.

Emergency Fire Procedures

Exit Paths

Exit or egress paths must be kept open and clear. Exit paths are all corridors and stairwells that serve the occupants of a building. The following are not permitted in exit paths even temporarily.

- Pressurized cylinders.
- Flammable or combustible liquids.
- Work stations, shop equipment and/or non-secured furniture, trash containers and filing cabinets.
- Biohazardous materials, radioactive materials, chemical agents or chemical waste materials.
- Any arrangement judged to create a physical hazard to responding emergency personnel or building occupants, including for people with disabilities.

Stairwells

No items of any kind are to be stored, even temporarily, in protected stairwells including:

- Chairs, desks, furniture, or other secured or non-secured obstacles.
- Equipment, vending machines, computers, or other devices.
- Boxes, cartons, trash cans, postal boxes, and other containers.
- After an action plan is developed, the coordinator will provide an appropriate response on all violations requiring major resource commitments. Maintenance violations will be referred to the appropriate University unit for remedial action or repair. Behavioural violations will be referred to the appropriate unit for appropriate action.

General Evacuation Procedure:

1. All employees are expected to immediately evacuate the building according to the emergency evacuation plan.
2. All doors should be pulled closed and unlocked if possible. Do not return for personal items.

3. Assist disabled persons down the stairs.
 4. Proceed to a safe designated location at least 100 feet away from exits.
- If you discover smoke and/or a fire:
 1. Activate the nearest fire alarm pull station.
 2. Notify another person nearby.
 3. Dial 998 to report the fire.
 4. Help evacuate the building's occupants.
 5. If safe to do so, use a fire extinguisher to put out a small contained fire.

POLICY ON SPORTS COMMITTEE

PREFACE /OVERVIEW

Sports at B M S College of Law is an integral part of the all-round development of the student's personality, and achieving excellence in sports is looked at as a great way of boosting morale and all-round development of a positive attitude. B M S College of Law is keen to implement programs to promote excellence in sports. At the forefront of the efforts, the Sports Committee has several facilities. Through its various sporting events, it supports and nurtures the talent of youth, providing them with requisite infrastructure, equipment, and competition exposure. It aims to develop students' physical competence and knowledge of movement and safety and their ability to use these to perform in a wide range of activities associated with the development of an active and healthy lifestyle. DECLARATION OF ADOPTION

On this day, the _____, I declare that this policy on Internal Assessment Monitoring Committees is formally adopted for use. The Policy will remain in force from this day until it is amended or replaced by another Policy following the relevant procedures said down herein for such purpose.

In testimony of this declaration I place my signature and the official seal of the College

PROCEDURES FOR AMENDING THIS POLICY

This Policy can be amended for the purpose of changing the composition either by reducing or increasing the membership, grounds for terminating the members etc..By incorporating a statement

as to why the amendment is required to be made to the Policy and the same has to be approved by majority of the members of the committee. The Principal will then take necessary steps for such a replacement.

1. EXTENT OF AUTONOMY

The committees will have complete autonomy in the performance of their tasks. In order to improve the work efficiency of the committee, the Principal will make allocations of clerical, infrastructural and supporting staff assistance if and whenever required by the committees.

2. OBJECTIVES

The following are the objectives of the sports committee:

1. To develop motor abilities like strength, speed, endurance, coordination, flexibility, agility and balance among students, as they are important aspects for good performance in different games and sports.
2. To develop techniques and tactics involved in organized physical activities, games and sports.
3. To acquire knowledge about human body as its functioning is influenced by physical activities.
4. To understand the process of growth and development as participation in physical activities has positive relationship with it.
5. To develop socio-psychological aspects like control of emotions, balanced behavior, development of leadership and followership qualities and team spirit through participation in games and sports.
6. To develop positive health related fitness habits which can be practiced lifelong so as to prevent degenerative diseases.

Sub: AMC for maintenance of Water Coolers - Reg.

This is to bring to your kind notice that the Annual Maintenance Contract of water coolers installed at various hostel units has expired on 31.03.2018. To ensure trouble free service of the systems it is proposed to go for Annual Maintenance Contract for the next one year (ie for the period **01.04.2018 to 31.03.2019**).

The capacities of water coolers and their total numbers installed in hostel units are as follows.

1. 20 Lt capacity = 16 nos
2. 40 lts capacity = 11 nos
3. 3000 lts capacity = 2 nos

M/s Spectra sales and services who have successfully completed the Annual maintenance of above water coolers at various hostel blocks last year have come forward to take up the AMC for the next one year at the same rates of last year which was as follows

1. 20 Lt capacity water cooler @ Rs 3,400/- each
2. 40 lts capacity @ Rs 4,250/- each
3. 3000 lts capacity @Rs 7,000/- each

Total Annual Maintenance cost inclusive of 18% GST at the above rates works out to **Rs1, 35,877/-**. Details showing break up of AMC cost for water coolers of different capacity, hostel units at which coolers are placed etc are mentioned in quotation which is enclosed herewith.

The matter is placed for kind perusal and orders
